Sub: - Circular on selection of a System Aggregator for e-auction of tea

Dear Sir(s),

With reference to the subject mentioned above, it is to be informed that M/s. NSEIT Limited, the existing software service provider of e-auction platform, was providing services for development, maintenance and hosting of e-auction software in open platform. The Board has now decided to move the existing auction platform into a web-based auction application and maintain & hosting the same into cloud environment. Accordingly, M/s. e-Procurement Technologies Ltd. (EPTL) based at Ahmedabad, Gujarat (Office address- A-201/208, Wall Street-II, Opp. Orient Club, Nr. Gujarat College, Ellis Bridge, Ahmedabad-380006. Gujarat) has been selected by the Board as a System Aggregator (SA) in place of M/s NSEIT through open tendering process for designing, developing and implementing the web-based application.

The web-based application so far developed by M/s EPTL Team shall be shared with industry stakeholders for testing etc, the details of which shall be intimated in due course.

Please note that the perspective of implementing web-based application for e-auction is to make the platform more user-friendly, enhance web-security, cost-effectiveness etc. However, there would be no change in the existing auction mechanism, application, etc.

This issues with the approval of Competent Authority.

Yours sincerely,

(Rajanigandha Seal Naskar)  
Controller of Licensing
